

# Galaxy Tab Active5

Consistent with IP68 rating, water resistant in up to 5 feet of water for up to 30 minutes. Rinse residue / dry after wet.

## No job's too tough

Give your frontline team a tablet that's more than up for the job with Galaxy Tab Active5. This Tab helps your crew do more with less while staying productive on-site or in the truck — perfect for field workers and industries like delivery services, warehouses and law enforcement. A durable and water-resistant design withstands drops, spills and extreme heat and cold<sup>1</sup>. <sup>4</sup> The responsive touchscreen makes it easy to knock out tasks — it even works if you're wearing gloves or with water on it.<sup>6</sup> Keep the workflow going with a long-lasting battery that's also replaceable — simply swap it for a fresh battery and continue on. Customizable features such as hot keys empower your workers by letting them turn the tablet into a scanner or a two-way receiver with compatible apps. Plus, your employees will work efficiently since Tab Active5 is part of a rich system of partner software and hardware integrations they already know and respect. And you'll experience peace of mind knowing Tab Active5 is designed with the built-in protection of Knox Security to help keep your business's data away from prying eyes.

### An enterprise-ready solution

Easily enroll, configure, manage and analyze hundreds of devices and more with access to Knox Suite<sup>3</sup> on your Galaxy Tab Active5.

### Never be without power

<sup>15</sup> Keep moving in the field with a replaceable battery. Plus, work in No Battery Mode<sup>5</sup> when you're connected to a dedicated power source.

### Defense-grade security, built right in

With Knox defense-grade protection built right in, we've got your data security covered.

### Leave the gloves on

<sup>6</sup> The responsive touchscreen even works with gloves, so your team stays safe and dry while they get more done.

### Rugged and ready for work

Conquer the elements with a dust-, dirt-, sand- and water-resistant design. Galaxy Tab Active5 is IP68-rated<sup>2</sup> in compliance with MIL-STD-810H1 to absorb shocks even when dropped<sup>4</sup> and can be safely sanitized.

### Make a sale from anywhere

<sup>7</sup> Ring up customers from anywhere with mPOS,<sup>a</sup> a feature that turns your Tab into a mobile point of sale.

Color	Dark Green	GPS	GPS, GLONASS, Galileo, BeiDou, QZSS <sup>19</sup>

Battery <sup>14, 15</sup>	Li-Po 5,050mAh, removable	Extensive Security Support	Up to 5 years of Security Maintenance Release
Connectivity	5G <sup>1, 6</sup> , LTE <sup>1, 7</sup> , Wi-Fi 6 (802.11 a / b / g / n / ac / ax), Wi-Fi Direct, Bluetooth v5.3, NFC	Ensure Business Continuity	3-year Product Lifecycle 1-year extra warranty added to the basic warranty
SIM	Dual SIM (SIM + embedded SIM) <sup>8</sup>	Consolidated Knox Solutions With Knox Suite (all-in-one Enterprise Mobility Solution) <sup>22</sup>	1-year Knox Suite included for free — our all-in-one enterprise mobility solution: Knox Platform for Enterprise, Knox Mobile Enrollment, Knox Manage, Knox E-FOTA, Knox Asset Intelligence, Knox Authentication Manager, Knox Capture
Interface	Type-C USB 2.0, pogo pin, 3.5mm earphone jack, microSD	Other Features	Included charger and cable
Sensors	Accelerometer, Geomagnetic, Gyro, Light, Proximity, Hall		

<sup>1</sup>These devices passed military specification (MIL-STD-810H) testing against a subset of 21 specific environmental conditions, including temperature, dust, shock / vibration and low pressure / high altitude. Real world usage varies from the specific environmental conditions used in MIL-STD-810H testing. Samsung does not guarantee device performance in all extreme conditions. <sup>2</sup>Consistent with IP68 rating, water resistant in up to 5 feet of water for up to 30 minutes. Rinse residue / dry after wet. <sup>3</sup>For the full list of Knox certifications, please visit [www.samsung.com/knox](http://www.samsung.com/knox). <sup>4</sup>1.8M drop is only tested with included case on; without case, the device itself can withstand a drop from 1.5M. <sup>5</sup>No Battery Mode is an optional battery safety feature developed to enable Galaxy Tab Active5 to operate without battery with fixed and continuous power supplied. Not all use cases are recommended or advised. <sup>6</sup>Glove Mode is compatible with most gloves and in wet conditions but does not work as intended with extremely heavy-duty gloves or mittens. <sup>7</sup>mPOS functions as intended with NFC-enabled contactless credit cards only and compatible back-end processing systems. <sup>8</sup>Measured diagonally as a full rectangle without accounting for the rounded corners. Actual viewable area is less due to the rounded corners and camera hole. <sup>9</sup>Screen refresh rate varies depending on the app used, and certain apps may not support up to 120Hz. Adaptive refresh rate supports up to 120Hz, which adjusts motion smoothness automatically as needed, while standard refresh rate supports a 120Hz screen refresh rate. <sup>10</sup>Touch sensitivity increases responsiveness for leather gloves 2mm or less in thickness, based on internal laboratory test results. Devices can be used in wet environments, but not fully submerged under water. Underwater touch is not available. Touch-responsiveness may vary depending on the material and thickness of gloves as well as other environmental conditions. <sup>11</sup>Weight may vary by market. <sup>12</sup>Actual storage space availability may vary depending on preinstalled software and by market, file size and format. <sup>13</sup>MicroSD card sold separately. <sup>14</sup>Typical value tested under third-party laboratory conditions. Typical value is the estimated average value considering the deviation in battery capacity among the battery samples tested under IEC 61960 standards. Rated (minimum) capacity is 4,900mAh. Actual battery life may vary depending on network environment, usage patterns and other factors. <sup>15</sup>Extra replaceable battery and pogo charging dock sold separately. In the case of extra replaceable batteries, only Samsung certified products are compatible for use. <sup>16</sup>5G Ultra Wideband available in select areas. <sup>17</sup>5G Nationwide available in 2,700+ cities. <sup>18</sup>Availability of LTE model varies by market or carrier. Actual speed may vary depending on market, carrier, content provider and user environment. <sup>19</sup>Embedded SIM availability varies by market. <sup>20</sup>GNSS availability type may vary by market. Galileo and BeiDou coverage may be limited. BeiDou and QZSS may not be available for certain markets. <sup>21</sup>DeX may not be available for certain markets. <sup>22</sup>Key mapping support may vary by app. Programmable keys limited to select functions. <sup>23</sup>DeX can be activated via Samsung Galaxy Tab Active5 without a cable only on supported monitors. Accessories and monitor sold separately. <sup>24</sup>Enterprise Edition devices are sold with one free year of the entire Knox Suite, following that first year, plans are sold based on MSRP or price end user paid, whichever is less. Total duration includes one year of standard limited warranty. Labor-only costs for mechanical and electrical breakdown are covered from date of purchase. Both parts and labor costs are covered after the manufacturer's warranty expires through the plan term. © 2024 Samsung Electronics America, Inc. All rights reserved.
